

AIA018 - Cabin Attendant Manual (CAM™)

Developed in accordance with the ICAO standards - English version - 2007

Description: This positive and pre-approved solution saves you time and money for your operations. The aim of the Cabin Attendant Manual (standard version) is to provide Cabin Crew Members and other associated Staff Members with a basic Operation Manual associated with the duties and responsibilities of Cabin Crews. This manual is designed to be further customized by an Air Operator by adding pages at the end of each chapters, specifying the State and the Air Operator’s variation. A list of recommended content is available in the yellow pages (operator’s variations) at the end of each chapter. Cabin Crews must comply with the requirements from International Civil Aviation Organization (ICAO) listed in this manual. These requirements are indicated by the use of the word “must”. Recommendation (best practices) are indicated with the word “should”. Note that any additional requirements listed by the Air Operators in the Air Operator’s variations pages must also be respected. Safety & Technical Bulletins (STB) are issued as needed. These are available free of charge to be downloaded from Ariane Information’s web site at www.ariane-info.com/CAM. A subscription service is available, free of charge in order to be notified when a new Safety & Technical Bulletin has been issued. **Content:** GEN General Information, EME Emergency Procedures, FLT Flight Procedures, SAF Safety Procedures, PAX Passenger Handling, TDG Transportation of Dangerous Goods, SEC Security, MED Aviation Medicine, EQP Portable Emergency Equipment, ABN Abnormal Procedures, SUR Survival, STB Safety & Technical Bulletins, and more. Available in English (other languages soon). **Format:** Binder w/tabs and template. Cabin Attendant Training Program associated with this manual is also available. Contact us!
